Hey

I understand you called the E line just now, are you running late? If so what is your ETA so I can let the client know?

Hi there, I'm surprised the operator didn't relay all of the info

I donated plasma earlier, and I am feeling weak. Usually, this never happens

Perhaps the operator wasn't fully listening so she couldn't tell you

I am laying down and drinking water until I feel better

9 months of donating at the same center, and usually, I feel fine afterwards
