Hi Dabney this is Marlen from TSC what is the reason for your call out today? Please advise via this text message

Hi Marlen, I have family in town for Rosh Hashanah and have an obligation to be with them.

Hello,

Please understand this is a final warning, any further attendance issues will result in employment termination as this is an unacceptable reason to call out when you are the one that placed this request to work in the first place. We encourage you to

please be more mindful of the commitments you make with our clients when confirming to work a shift
