Gabriel &gt;

Ima speak to him myself

That's fine we were only doing a head count to make sure the extra was not needed which is when I reached out to you to see what area you were in, thanks

Today 12:38 PM

Gabriel

I hate to be a pest here but I don't see that you clocked out for your lunch today, can you please advise what is the reason for this? The time clock is there for the purpose of recording your hours if you're not using the time

clock correctly this can lead to payroll discrepancies. Please advise what times you took your lunch so I can correct this
