To Whom Concern,

On the first day I met Mayra Campos she was pretty nice and cool. On Tuesday it seem like her attitude and demeanor change towards me and everyone in the kitchen. First she was all in my face trying to joke as I was changing out the salad bar. I told her to get out of my face because she was to close and I did not appreciate her being in my face while I was doing my job. Not only was she in everybody face she was always standing directly behind them as they were trying to get their job done. She also kept calling Mrs. Cathy Maria and she repeatedly corrected her which she did not listen. She would talk to Mrs. Cathy in Spanish and whatever she would say Mrs. Cathy would make like an uncomfortable face. Its like she did not like what she said.
