Today 11:45 AM

Hi this is Travis Dubois I guess you have me scheduled to work today at the California Club. Although I do really want to start working as soon. As possible I got the days mixed up and won't be ready to work today. I don't have all nonslips or a belt yet and I won't be able to make it on time today. I can be ready for the next shift even if it was tomorrow.
