Hi there-  
I've started the onboarding process. My application has been filled out, and I'm about 3 red/green boxes complete. There was a slight hick up with using my password but I clicked on something and the page opened up. Prior to that, on the 1st step the form provides a pathway to uploading a resume. However, "desk top" or any other folder was not an option. FYI: I am on a MacBoo Air laptop.

Q: is my resume already uploaded? If not I can

Q: is my resume already uploaded? If not I can email it to you, as the Indeed app. allows for downloading and saving on a device & computer.

I'm working until  
11:30pm, home  
sometime around  
midnight. I can resume  
before I go to bed so  
you have everything in  
the morning.

Hi Sean, Copy that. No need to upload your resume. We have a copy. When you log into Step 2, use the "Returning Employee"

Hi - it's Sean. Came home early. Can't get into the system. I tried to reset my password but it's rejecting the email. Somethings up because when it rejected it before I clicked somewhere on the screen probably by accident and it opened up and let me start the beginning on boarding process. I may need to have the whole thing reset. However I do hope I don't have to start from the

beginning. This seems to be an extremely long and drawn out process.
