

Goodafternoon, I sent a text to the person in charge that day . When I was going to be on my way my cars front tire was completely flat , it was not drivable . And there was no one to give me a ride and with public transit it would have taken me about 2 hours and it was too late then , I asked Adam. I am so sorry for the inconvenience. I apologize for my lack of time ahead to be able to see this problem way before it was time to leave. I would appreciate very much if I am still able to work for TSC, I am grateful to be part of your platform. Thank you for understanding and your time.
