Yesterday 4:30 PM

Hi saw that you tried calling the line? Everything ok?

My car is not starting. I'm trying to figure out what's going on but I do not think I will be there in time for shift, my drive is about 28 min and it's still not starting I have a neighbor taking a look but everything is electrical.

Can you try and be here by 6:15? We really need you

I will try getting a ride, I'll get back to you in a few min
