Good morning,

Those hours listed is not where you would be seeing your total hours worked, that would be on a paystub in the portal, which I can show you how to find them when I get to the office today, as for the direct deposit since it did not go through for payroll for this week your check would have gotten sent out in the mail as of Wednesday but it gets mailed out from Florida, so there's a possibility due to USPS you might not receive the check today and it could come in a few days, it would be getting mailed to your address on file

Thanks
