

Hello Ugail.

Unfortunately due to budget cuts we are forced to cancel your assignment at Stripe at the same time your performance is great is just slow with the work environment we are in. I have talked to you before regarding your performance. We have decided to move forward. Thank you for everything you brought to the team and we wish you nothing but good health and success. I would offer you another position but unfortunately at this time I do not have anything open.

Again thank you for everything.

- Musab
