Hello Team,

Today we emphasized the crucial aspect of food safety. I want to emphasize that accountability is a collective responsibility. Whether it's preparing, pulling, or serving the chicken, each role is vital, and we all share the responsibility for ensuring the food we deliver is safe and of the highest quality. We must work together and ensure that every step of the process meets our safety standards.

Remember, we are a unified team, and our success depends on each of us taking ownership of our part in the service we provide. Let's continue to support each other and uphold the highest standards of food safety.

Thank you for your commitment!

Best,

JAIME BARNHART | Operations Manager - Hospitality Division
