§ Strong work ethic

§ Ability to work independently and on teams.

To whom it may concern,

I submit to you my resume as application for the server position as advertised on Craigslist. I am positive that I would be a great asset to the team since I have several years of experience and I am truly passionate for the food service industry. For I have been in the environment since I was 18 years old and I am 26 now. I am very personable and outgoing which I believe are mandatory traits for any employee working within the service sector, and essential for interacting with Sacramento's diverse population on a daily basis.

My time working at Luca's and Chevys, have led me to excel in the fast-paced environments of such businesses and I very much enjoy the atmosphere. During my time at Luca's I learned how to be organized, efficient, and take orders well. I take pride in my presentation and in making sure that the customer has an enjoyable experience and leaves the restaurant looking forward to their next visit.

I would love to hear more about your expectations and the duties required for this job. Thank you for reading this cover letter and considering me for the position. I look forward to hearing from you soon.

Best Regards,

Cesar Torres
