April 3rd, 2013

To whom it may concern,

In several years of service, I have developed an impressive inventory of skills that I constantly employ to ensure utmost guest satisfaction. In all my interactions with guests I aim to provide an experience that is both genuine and unique. As a result of my dedication, managers have repeatedly told me that my enthusiasm and table presence is matched only by my fixation on the finest detail. It is that balance which allows me to effectively anticipate and sync with the needs of both the guests and the restaurant. I have worked with and provided service to a wide range of people, effectively communicating across diverse cultural backgrounds. This has empowered me to be successful at establishing working relationships at multiple levels and influencing guests to return.

It is my number one goal to provide a memorable experience for guests. This is achieved not only by providing masterful service, but also by maintaining a professional and comfortable environment in which guests can enjoy themselves. I will constantly support the restaurant on multiple levels to ensure the standards of excellence set by my leaders are met. I am confident that I can provide a positive influence to any team and will work hard to develop trust and dependability with my guests and colleagues. It is my experience that success in this industry is achieved through the efforts of a cohesive team devoted to excellence in skill, service and knowledge. I hold true to these core values, and look forward to the opportunity to demonstrate them to you.

Sincerely,

Jonathon M. Fleck
