## SUMMARY

I've worked in the entertainment industry for almost twenty years, mostly on the road. Since the birth of my children, I prefer to work near home in southern California. Though off stage, my experience in the restaurant and bar industry continue to grow thru catering events such as conventions and country clubs. An associate told me good things about Acrobat Outsourcing. After a little research, I feel the company would be a really nice fit. I hope to use my newly aquired fine dining skill to contribute to the core of the company.
