I have worked as a Bartender in the Hospitality industry in San Francisco for 10 years, from Hotels to Bars to Catering. I have a pleasant and outgoing personality. Always friendly and good humored, I make it a point to get along with my fellow staff members and management.

I realize bar-tending is much more than pouring drinks, it is making the guest feel welcomed to the bar or restaurant, engaging where appropriate in conversation, helping with any suggestions for drinks, food, or places to visit in the Bay area.

Experience : I am working as Bartender at the moment for the high end Best Beverage Catering, on Barnveld Street in San Francisco. We work prestigious events in Stanford University, The Academy of Sciences, De Young Museum, etc I have worked here happily for two and a half years but would like to avail of extra shifts, either part time or full time if possible.

I worked for two years in the Sheraton Hotel and their sister Hotel The Holiday INN in South San Francisco as Bartender in their Bar/Restaurant, mixing cocktails, serving food from the kitchen for guests seated at the Bar, making drinks for the waitstaff for Restaurant and room service. In my first six months here I was awarded Bartender of the Month twice by management.

I worked for six years in the very busy Chieftain Irish Bar and Restaurant on 5th and Howard in San Francisco. I was lead Bartender here, and I am still called in to fill shifts in a staffing emergency. I again served drinks and meals to guests seated at the bar, mixed drinks for the waitstaff and kept a clean and efficient bar running through the busiest shifts.

I have excellent references from these employers available on request or at interview.

Thank You, Paul Mathews.
