Greeting every customer at the door with a warm, inviting welcome. Always being aware of time management when quoting customers. Being able to deal with impatient customers, while they are waiting to be seated. We were in charge of seating every customer, busing tables, running food from the kitchen, maintain the stores appearance, and keep the restrooms clean. Having to handle stressful situations on our own, and making sure every customer is satisfied

Hot Dog on a Stick

May 2011 to August 2012

Cashier/Cook

Puente Hills, CA

Customer service was always our number one priority. We tended to work alone most of the time, along with opening and closing on our own. Cooking, re-stocking, cleaning, stomping lemonade, serving customers, and handling all money transactions were all apart of the work criteria. Counting out our own money every night and locking up the safe and store every night.
