Red Lobster:

Host/Server Assistant/Waiter- my responsibilities were to sit tables and to have a positive attitude as a Host. Part of my job description as a Server Assistant was to clean tables, walk food, and to help the servers with anything they needed. As a server I had to know a lot about our fish, lobster, and the fish of the day.

August 2011-August 2013.

Mode: my responsibilities were to greet customers and make sure they found anything they were looking for. Part of my job relied also on being on cashier and knowing how to back stock. **I worked with that company for 2 years and I was in pictures for the store as well.**
