Professional Catering Server

From 2006 to present, I have found working with fine food caterers a great on-call job. My experience in fine food service comes with hundreds of weddings, Bar Mitzvah's, Bat Mitzvah's along with various types of corporate events and private parties. My vast knowledge of the catering business is in table settings, setting up buffets, plating and presentation of dinner and desert, cleaning and efficiently packing up when all is done!
