## OBJECTIVES

I am a hard working individual who likes to perform even the most simplest of task to the best of my abilities. I like to follow directions well and if possible I would certainly suggest a more efficient and productive way of doing any task. I also get satisfaction from good work performance from myself and since I have been in service industry all of my working career, I like to make people happy and will try my best to cater to their wants and needs. I am a people person so I socialize well with others and can relate to people in just about any way. I am also eager to learn new experiences in any workplace and can take criticism well if it is warranted.
