Summary

I have a very diverse education and background, and speak **4 languages fluently**. After **graduating with Honors** from Darlington High School in Georgia (a prestigious Soccer Academy), I joined the **Division 1 College Soccer Team** of Georgia South University, studying International Business.

A persistent foot injury has won over my passion for soccer, and I have now decided to redirect my life to a meaningful professional and humanistic career.

My desire is to be a **team player who helps and supports people with care, dedicated work, physical strength and international knowledge**.

I am looking forward to contribute with passion to causes and businesses that enable people of all ages and conditions to exchange and partner with each other, and feel like they are living a better life as a global and diverse community.

I have a lot to give, and still even more to learn...
