Re: Alex Harris

To Whom It May Concern:

I am writing to verify that Mr. Alex Harris is currently under my care performing in-center hemodialysis thrice weekly successfully. His physical activity is good and should be able to function required by his employer. Sitting, standing, walking, lifting items as tolerated should not be limiting for him at this time.

Should you have any questions, please do not hesitate to contact my office.

Sincerely,

A handwritten signature in black ink, appearing to read 'B. Workeneh', written over a horizontal line.

Biruh Workeneh, MD, FASN
