DRIVER/MOVER

Delancey Street Movers, San Francisco, CA

06/2014 – 11/2014

- Drove trucks with a crew of three to ten members.
- Provided work estimates to the clients, creating a work order for the service.
- Handled all the scheduling of the move along with the resource planning.
- Handled all the communication between the client and our office for all work order related issues.
- Operated most propane forklifts.
- Led the moving crew in loading and unloading the materials from delivery trucks.
- Followed all safety rules and procedures.
- Organized/cleaned warehouse and work area.
- Monitored building security and safety.
- Completed all paperwork in time as per internal policy and procedures.

Concrete Pump Operator

Bowman Concrete Pumping, Inc. CA

11/2010 – 12/2013

- Monitor gauges and flowmeters and inspect equipment to ensure that tank levels, temperatures, chemical amounts, and pressures are at specified levels, reporting abnormalities as necessary.
- Communicate with other workers, using signals, radios, or telephones, to start and stop flows of materials or substances.
- Turn valves and start pumps to start or regulate flows of substances such as gases, liquids, slurries, or powdered materials.
- Plan movement of products through lines to processing, storage, and shipping units, using knowledge of interconnections and capacities of pipelines, valve manifolds, pumps, and tankage.
- Read operating schedules or instructions or receive verbal orders to determine amounts to be pumped.
- Clean, lubricate, and repair pumps and vessels, using hand tools and equipment.
- Connect hoses and pipelines to pumps and vessels prior to material transfer, using hand tools.
- Tend auxiliary equipment such as water treatment and heat exchangers.
- Add chemicals and solutions to tanks to ensure that specifications are met
- Pump two or more materials into one tank to blend mixtures.

MECHANIC/FABRICATOR/WASHER/DRIVER

Valley Fleet Clean, Fresno, CA

07/2007 – 11/2010

- Fabricated all tank mount on the truck flatbeds.
- Built pressure washers, motors and all the supply hoses.
- Serviced all the truck during their regular maintenance.
- Completed all the repairs to all the truck equipment and the truck.
- Fabricated trailers using welding and plasma cutting techniques.
- Built hydraulic systems to run the pressure washers on the trucks, using a PTO ran by the transmission of the wash truck.
- Maintained the trucks using the pressure washers and drove them to and from customer sites.

TILE SETTER/FOREMAN

Pacific Coast Tile and Marble, Fresno, CA

12/2003 – 10/2010

- Cut and shape tile to fit around obstacles and into odd spaces and corners, using hand and power cutting tools
- Lay and set mosaic tiles to create decorative wall, mural, and floor designs.
- Align and straighten tile using levels, squares, and straightedges.
- Determine and implement the best layout to achieve a desired pattern.
- Measure and mark surfaces to be tiled, following blueprints.
- Finish and dress the joints and wipe excess grout from between tiles, using damp sponge.
- Cut, surface, polish, and install marble and granite or install pre-cast terrazzo, granite or marble units.
- Mix, apply, and spread plaster, concrete, mortar, cement, mastic, glue or other adhesives to form a bed for the tiles, using brush, trowel and screed.
- Apply mortar to tile back, position the tile, and press or tap with trowel handle to affix tile to base.
- Level concrete and allow to dry.
- Prepare surfaces for tiling by attaching lath or waterproof paper, or by applying a cement mortar coat to a metal screen.
- Mix and apply mortar or cement to edges and ends of drain tiles to seal halves and joints.
- Remove and replace cracked or damaged tile.
- Apply a sealer to make grout stain- and water-resistant.
- Remove any old tile, grout and adhesive using chisels and scrapers and clean the surface carefully.
- Prepare cost and labor estimates, based on calculations of time and materials needed for project.
- Study blueprints and examine surface to be covered to determine amount of material needed.
- Cut tile backing to required size, using shears.
- Install and anchor fixtures in designated positions, using hand tools.
- Assist customers in selection of tile and grout.
- Select and order tile and other items to be installed, such as bathroom accessories, walls, panels, and cabinets, according to specifications.
- Measure and cut metal lath to size for walls and ceilings, using tin snips.
- Build underbeds and install anchor bolts, wires, and brackets.
