

Chris Carmichael

I am a hard working professional in the food/beverage/service industry seeking immediate employment. My 10+ years of experience in the restaurant industry combined with my recent ventures in the craft beer world have provided me with a wealth of information and skills. As you will see in my experience below I have held management, bartending, serving, catering, and bussing positions making me a very well-rounded employee. I am quick, efficient and familiar with most P.O.S. systems and feel confident learning new systems. In addition to general service tasks I have also been responsible for general sales of beer to guests in the tasting room, changing kegs, maintaining a sanitized environment, providing excellent customer service, handling cash transactions, filing end of the day reports/deposits and much more. I am passionate about local craft food and beverages, creating a positive and memorable experience for guests and sharing my knowledge with the community.
