## EXPERIENCE

### **Mcdonald's, San Jose - Cashier**

Providing great customer service as a cashier. Also keeping the store sanitary and organized. I was open to try new things other than cashiering.

### **Apple Inc, Cupertino — Barista, Front end**

Served fresh and hot handcrafted espressos. Customers were always satisfied. Communicating with the customers making them feel comfortable while they wait for their drink. Worked with urgency. Also was responsible for cashiering and plating the desserts. Always made sure that the work area was clean and organized.
