*Curious field biologist prepared to conduct biological assessments, protocol wildlife surveys for special-status species and construction compliance monitoring as part of a team or independently.*

## **Experience**

### **Biologist**

**5/2014-9/2016**

Natural Investigations, Citrus Heights, CA

Completed biological assessments including research, field studies, and writing technical reports. Conducted mitigation monitoring and SWPPP inspections and completed associated documentation and reports.

### **Watershed Coordinator, American River Watershed Group**

**3/2002-9/2004**

Placer County Resources Conservation District, Auburn, CA

Managed and facilitated a consensus based watershed group. Selected and prioritized topics for discussion, developed meeting agendas, secured speakers, ran meetings. Communicated with and educated group members and the public about watershed issues and developed creative solutions to these issues. Secured over \$900,000 in grant funding for future watershed work.

### **Biological Monitor/Wildlife Biologist**

**6/1999-9/2001**

Jones and Stokes Associates, Sacramento, CA

Ensured compliance with permits on construction sites. Interpreted, implemented, and documented permit and mitigation requirements of CEQA, NEPA, CWA Section 404 permits, CDFW SAAs, CDFW ITPs and CWA Section 401 certifications and other documents. Supervised a team of up to nine biological monitors. Conducted protocol level surveys for and protected numerous special-status wildlife species including survey seasons for marbled murrelet, northern goshawk, and some surveys for spotted owl.

### **Soil Conservation Technician**

**11/1997-11/1998**

USDA Natural Resources Conservation Service, Eureka, CA

As an intern, I focused on watershed management, conservation planning, recycling of agricultural waste plastic, and methane for energy.

## **Education**

### **Humboldt State University, Arcata, CA**

**August, 2001**

Bachelor of Science, Environmental Science

Minors: Natural Resources and Environmental Ethics

### **Feather River College**

**June, 1995**

Associates of Science, Physical Science and Biology

Associates of Arts, Social Science

## **Job Related Training Courses**

- Habitat Conservation Planning, Jones and Stokes Associates, June, 2001
- Wetlands Delineation Training and Certification, Portland State University, April, 2000
- Holistic Management Institute, National Science Foundation, Shasta College, June, 1998
