I have worked six years in the fast-food and grocery/retail industry and I believe that it is time for a career change. Working in several restaurants and grocery stores, I know a great deal about customer service and satisfaction. I've learned how to manage a team to work towards specific goals and learned how to work with people from different walks of life. Now that I'm getting older, there's a strong need to get into a more professional career path and broadening my work experience.

Willing to relocate: Anywhere
