## Work Experience

---

### **Picker**

Garden Highway Foods - Riverside, CA

February 2022 to July 2023

As a picker i was equipped with a pallet jack and a Gladiator RF Scanner similar to a modern day phone to begin on your selected order, the orders may be light and small 50/150 lbs or some large with some weight 400/700 lbs it all depends how the orders come out the picking line, each order is prepared on a pallet and comes from the production department, the products that we pick for this company are Vegetables, Fruits, Deli Meats, Cheeses, Yogurts, all the products are Cut, Diced, packaged/sealed in plastic containers which then are inducted and processed in the system before being shipped out to our department, there is 10 long aisles and over 60 different store number locations to pick from this is a cold temperature warehouse 32/40 degrees.

### **Assembler**

Masonite Doors Fabricator - Moreno Valley, CA

December 2016 to December 2021

Assembling and building doors and sanding them down before heading in to paint department, the position entails operating drill guns,air pressured nail gun,staple guns and then once you have your equipment, you go to your door table station where to place the doors and then a door should be handed/brought to your table then you proceed to build and assemble the door with the hinges,heads door panels,bottom seals etc. etc.
